

# Tyndall's Park Surprise Royal

A 50-row grid of numbers from 1 to 9, with a 12-row section at the bottom. Each row is part of a cryptarithm puzzle. The grid is divided into four vertical sections by circled numbers 2, 4, 6, and 8. Each section contains a set of numbers that form words when read vertically. The numbers are arranged in a grid where each row represents a word, and each column represents a letter. The letters are represented by the numbers 1-9, with 10 representing 0. The grid is as follows:
