

Nightingale Treble Place Maximus

The diagram is a treble place maximus, consisting of 12 vertical columns of notes and letters (E, T) connected by a network of blue and red lines. The columns are numbered 1 through 12 at the top. The notes are arranged in a specific order, and the letters indicate the parts (Tenor and Bass). The connections between notes in adjacent columns represent the chords and intervals of the bridge. The diagram is highly symmetrical and complex, with many overlapping lines and connections.
