

Swindon Surprise Maximus

Figure 1 displays a 16x16 grid of 256 small diagrams, each representing a unique 16x16 grid of numbers (0-9) and letters (E, T). The diagrams are arranged in a 4x4 grid of 16x16 blocks. Each block is labeled with a number (1-16) in the top-left corner. The diagrams are generated by a process of randomization and selection, resulting in a diverse set of patterns. The numbers and letters are arranged in a way that creates a complex, non-repeating pattern across the entire grid.
