

Culverhay Castle Surprise Major

Figure 1 displays eight 8x8 grids (1-8) showing the evolution of a 2D Ising spin configuration. The vertical axis on the left of each grid is labeled with the following sequence of values: X, 58, X, 1456, X, 1256, X, 16, X, 34, X, 38, X, 14, X, 58, 12. The grids show a sequence of spin configurations (0 to 7) with blue and red lines indicating the evolution of the system. Grids 1-4 are on the left, 5-8 on the right. Grids 1, 5, 7, and 8 have circled numbers 2, 5, 7, and 8 respectively, indicating specific states or steps in the evolution.
