

Earthium Surprise Major

Figure 1 displays eight 8x8 grids (labeled 1 through 8) showing the evolution of a 1D Ising spin chain. Each grid contains a sequence of 64 spins (1-8) and a blue path connecting them. The grids are arranged in two rows of four. The top row (grids 1-4) is labeled with 'X' and the bottom row (grids 5-8) is labeled with circled numbers 5, 6, 7, 8. The paths show a complex, non-local evolution of the spin configuration.
