

Kenilworth Castle Surprise Major

Figure 1 displays eight diagrams (1-8) illustrating the evolution of a 1D lattice system. Each diagram shows a grid of numbers (1-8) with blue and red lines connecting them, representing the system's state over time and space. The diagrams are arranged in two rows of four. The vertical axis represents time steps, and the horizontal axis represents spatial positions. The diagrams show the growth of a system from a single point to a complex, branching structure. The paths are labeled with numbers 1 through 8, indicating the sequence of states. The diagrams are labeled (1) through (8) in the top right corner of each grid.
