

Melksham Surprise Major

Figure 1 displays eight 8x8 grids, each representing a different configuration of paths (blue and red) connecting numbers. The grids are labeled with circled numbers (2, 3, 4, 5, 6, 7, 8) and a set of numbers (X, 58, 14, 56, 56, 1238, 14, 38, 16, 18, 12) on the left. The paths are composed of blue and red lines connecting the numbers in the grid.

The grids are arranged in two rows of four. The top row contains grids 2, 3, 4, and 5. The bottom row contains grids 6, 7, 8, and 9. Each grid shows a unique arrangement of blue and red paths connecting the numbers in the grid.
