

North Somerset Surprise Major

Figure 1 displays eight 18x18 grids, each representing a permutation of the numbers 1 through 18. The grids are arranged in a 4x2 grid. Each grid contains a blue path and a red path, both starting at the top-left corner (1,1) and ending at the bottom-right corner (18,18). The paths are labeled with circled numbers 1 through 8, indicating the sequence of moves. The blue paths generally follow a more direct route, while the red paths are more convoluted. The grids are labeled with circled numbers 1 through 8, corresponding to the paths.
