

Queenborough Castle Surprise Major

Figure 1 displays eight 8x8 grids, labeled 1 through 8, showing the evolution of a 2D Ising model. Each grid contains a sequence of numbers (1-8) and blue and red lines representing the state of the system. The grids are arranged in two columns of four. The left column (1-4) shows a sequence of states, and the right column (5-8) shows another sequence. The blue lines represent the state of the system, and the red lines represent the state of the system. The grids are labeled with numbers 1-8 in the top right corner.
