

Sedgemoor Surprise Major

Figure 1 displays eight 8x8 grids, labeled 3 through 10, illustrating the evolution of a 1D Ising spin chain. Each grid contains a sequence of 8 spins (1-8) and a sequence of 8 gates (X, 56, 14, 56, X, 56, 38, 14). The gates are applied sequentially from left to right. The initial state is represented by red lines, and the final state is represented by blue lines. The final state is shown in the bottom row of each grid.
