

Yeo's Surprise Major

Figure 1 displays eight 8x8 grids, each representing a different pattern of blue and red lines. The grids are labeled with circled numbers 1 through 8. The coordinates (X, Y) are listed on the left side of each grid, indicating the positions of the lines. The blue lines represent the main paths, while the red lines represent secondary paths or connections. The patterns vary significantly, showing different ways the lines are distributed across the 8x8 grid.
